RAW
STONES

WELCOME TO RAW STONES

RAW Stones originates from the search for new possibilities for authentic and unique characteristic floors. A unique production process has been developed for this purpose within RAW Stones. This allows you to bring those characteristic Mediterranean streets with that robust look into your home or business space.

RAW Stones offers the ideal combination of a floor with the appearance of original natural stones, but with the advantages of a modern, contemporary floor. A RAW Stones floor brings warmth and atmosphere into every space.

WHAT MAKES RAW STONES SO UNIQUE?

The composition consists of natural materials, and this ensures a very durable floor that you can enjoy for many years.

Furthermore, RAW Stones floors are very easy to maintain and particularly suitable for commercial spaces. Thanks to a minimum floor thickness, the use of underfloor heating is also possible. Especially because the composition of RAW Stones conducts heat in an excellent way.
